Two More Murders Cause of  
Great Concern in Wash-

Home and Nearly Entire  
State of Chihuahua in  
Hands of Rebels.

WASHINGTON, May 3.—  
The number of two more Amer-  
icans in Mexico, reported today  
to the War Department, accom-  
panied the concern with which  
the department is watching develop-  
ments beyond the border.

There was nothing, however,  
to indicate what extent the  
state of the Washington govern-  
ment toward the Sonora  
revolutionary movement might  
be affected by the fact that the  
latest murder occurred in Carranza-  
controlled territory.

Reports to additional warship  
units in the Gulf of Mexico and  
the Gulf of California already had  
been sent to the War Department.  
While this is the first time that  
the United States has sent war-  
ships to the Gulf of Mexico since  
the Mexican revolution broke out  
in 1910, the reported ob-  
servation of the United States  
fleet in the Gulf of Mexico is  
not new. The United States  
fleet has been in the Gulf of  
Mexico since the Mexican revo-  
lution broke out in 1910.

### HOMES VACANT IN WINDY CITY.

Thousand Chicago Families  
Desert Landlords; Rents  
Advanced.

(By A. P. NIGHT WIRE.)  
CHICAGO, May 3.—More  
than 1000 vacant apartments were  
thrown on the market over the  
week-end and real estate dealers are in a quandary  
as a result.

Hundreds of families whose  
rentals had been raised moved out  
May 1 without warning.

Rents have advanced in many  
cases from \$8 to \$10 per cent,  
the agents pleading the law of supply and demand  
justified the increase.

Real estate agents estimate  
that 10,000 families who had  
received notice to move May 1  
refused to do so, defying the  
landlords because they  
could find no place to go.

The unexpected vacating of  
more than 1000 apartments has  
left the landlords in a  
doubt. Many families  
doubled up, two to an apart-  
ment, and others moved to  
hotels rather than pay in-  
creased rentals.

\*\*\*\*\*  
definite co-ordination between the  
factions was being arranged. Official  
information showed the revolution  
had been planned for several  
months.

NEWSPAPERS Muzzled.  
Unofficial advices from Mexico  
City indicate censorship is being  
exercised more sharply than ever,  
and that newspapers are not permitted  
to print news of the rebel activity in  
the north.

Gen. Obregon has pledged himself  
to protect foreign lives and interests.  
He elected to the Presidency, a  
Circular report said. Obregon also  
made a declaration of neutrality  
in favor of renewal of foreign invest-  
ments in Mexico. He accused Presi-  
dent Carranza of violating the con-  
stitution, of assuming dictatorial  
powers, and of having injured Mexico  
through adoption of a policy calcu-  
lated to drive out foreign capital.

### STORM TOLL FIFTY-ONE.

Oklahoma Tornado  
in Fearful Harvest.

Little Town of Peggs, in  
Cherokee County, Almost  
Totally Wiped Out.

Far from Railroad, Place not  
Heard from Until Hours  
After Tragedy.

(By A. P. NIGHT WIRE.)  
MUSKOGEE (Okla.) May 3.—  
The death toll from the tor-  
nado at Peggs, Cherokee county,  
reached fifty-one tonight, accord-  
ing to a telephone message from  
Locust Grove. Seven persons are  
unaccounted for, with about 100  
injured.

A special train bearing the in-  
jured is on the way to Muskogee.

The cyclone virtually wiped out  
Peggs, a small village in the north-  
west corner of Cherokee county,  
about 9 o'clock last night. Seven are  
unaccounted for.

Forty-three bodies have been  
recovered by rescue workers. More are  
believed to be in the wreckage.

Only three buildings remained  
standing after the storm passed.

Whole families were crushed to  
death when their homes were torn  
to pieces by the gale. When members  
of the Lovers family were killed,  
seven of the Littlefield family,  
eight persons by the name of Frank  
and five members of the Wilkerson  
family are numbered among the dead.

Forty-two coffins are being sent  
to Peggs from Tahlequah, a near-  
by town. This is as many as could  
be found there.

SCORES SEVERELY INJURED.  
Temporary hospitals have been or-  
ganized amid the wreckage and  
scores of severely injured are be-  
ing given first aid. Those who can  
stand the trip to Tahlequah are  
being taken there, while others will  
be placed in hospitals.

Six Tahlequah doctors, the first to  
reach the scene, sent calls for more  
assistance. This morning 199 auto-  
mobiles with men and women re-  
lief workers were on their way to  
Peggs.

The village had a population of  
about 250.

When rescuers arrived they found  
only a heap of twisted metal and  
ruined debris. Rain and hail accom-  
panied the storm and when the  
workers began collecting bodies  
from the ruins many were so plas-  
tered with mud that they had to be  
washed off before they could be  
identified.

Fifteen detectives from the bomb  
squad and several deputy sheriffs  
guarded the courtroom, which was  
filled with Larkin sympathizers.

One young woman was rebuked  
by the court when she rose and at-  
tempted to take Larkin's hand as he  
was led away.

Called to the bar, the woman  
said: "I simply rose thinking I would  
be permitted to show respect in that  
manner for the man for whom per-  
haps I have more respect than any  
other. I thought I would be al-  
lowed to do so on one does for the  
judge of the court."

Several women shook hands with  
Larkin, and the mother of former  
Assemblyman Gilroy, now serving  
sentence for criminal anarchy, em-  
braced him.

One Killed in May Day Riot.

ROME, May 2.—A number of May  
Day demonstrators at Pola yester-  
day tried to pass through a street  
barred by soldiers, and when their  
way was barred, attacked the  
soldiers. The soldiers fired on the  
crowd, wounding thirty persons. One  
officer was killed.

HOOPER WIRES APPRECIATION  
OF CAMPAIGN IN HIS BEHALF.

Characteristic of the generous nature of the man, Herbert  
Hoover last night sent a telegram of thanks to the loyal friends in  
California who have been working in the interests of the primary  
campaign to elect delegates pledged to his candidacy. The telegram  
was addressed to Ralph Arnold, vice-chairman of the National  
Hoover Republican Club, whose home is in Los Angeles, and is as  
follows:

"I cannot let this day pass without expressing to my fellow  
citizens of California my heartfelt thanks for their unceasing  
and steady efforts in my behalf. When I think that my cam-  
paign has grown up almost overnight, and that it has had the  
enthusiastic support of the finest citizens of all classes in my  
honor, I am more than ever convinced that no greater mis-  
take can be made than the assumption that our people have lost  
their national aspirations and idealism because they have gone  
back to business.

### PREDICT BIG VOTE TODAY. Contesting Political Forces Believe the Primary Record is to be Broken.

(By A. P. NIGHT WIRE.)  
SAN FRANCISCO, May 3.—Calli-  
fornia voters will go to the polls to-  
morrow at the Presidential primary  
election to vote for delegates to the  
Republican, Democratic and Prohi-  
bition party national conventions.

The registration broke records for  
all previous primary elections.  
1,111,192 voters having signed the  
great register. Of this number,  
692,747 declared their affiliation  
with the Republican party, 247,175  
with the Democratic, and 171,270  
with the Prohibition party.

CLAIM TEXAS FRAUD. DALLAS (Tex.) May 3.—Charges of "fraud and intimidation" in the Democratic precinct conventions and the election of Governor James B. Hargis, which prohibited the sale of American registered vessels to foreigners, was returned by the Federal grand jury today.

With Morse were indicted Capt. W. S. Mitchell, the United States Steamship Company and the J. C. McCullough Company. Judge J. N. Hand issued bench warrants upon request of Assistant Federal District Attorney Jerome Simmons, who has been conducting an investigation lasting four months.

The indictments charged that in August, 1917, the steamer John G. McCullough was sold for \$100,000 to the government of Tunis, a French protectorate. In many instances the "no-called" convention was held where the anti-Balfour chairman was the only person present. Fraud and intimidation were never practiced to a greater extent.

It was contended that the Twenty bid was deficient in form, and that it was not complete in being based upon a cement freight rate from Riverside that has not yet been secured. There also was formal refusal of all bids for material, as well as all contracts, agreeing to provide the completed road.

This evening in Phoenix, an open shop association was organized by the owners of a majority of the restaurants of this city. It is claimed that only the most radical of labor element is participating in the picketing against restaurants that refuse to obey the union rules.

the offer," said a statement issued at the Wood headquarters. "We are just as anxious to have a recount in the counties lost to Gen. Wood as the Johnson men are to have a recount in the counties in which their man was defeated."

ANTI-SALOON LEAGUE ACTS.

WESTERVILLE (O.) May 3.—The Anti-Saloon League of America, through Dr. P. A. Baker, its general superintendent, today placed its stamp of approval on seven Presidential candidates. They are Hoover, Wood, Lowden, McAdoo, Hughes, Folger and Bryan.

Mr. Baker's statement says the "prohibitionists of the country can safely support any of these men if nominated."

The statement is taken by league men to mean that no other candidates mentioned as possibilities up to date have the league's approval and that the organization will fight for the election of one of the seven.

It is not included in this list, they are Harding and Johnson, Republicans, and Cox and Edwards, Democrats.

Announcement also was made that further investigations of other possible candidates will be made. Today's statement also reaffirms the league's position on the national convention.

CLAIM TEXAS FRAUD.

DALLAS (Tex.) May 3.—Charges of "fraud and intimidation" in the Democratic precinct conventions and announcement that former United States Senator Joseph E. Ransdell would say the race for Governor of Texas "to the end," were made in a statement by Luther Nichols, campaign manager for Mr. Bailey. He says that only 100,000 of the 1,000,000 Texans expressed themselves at the precinct.

"The opposition," he said, "was manipulated to confuse and mislead the voters as far as possible. The statement continued, 'In many instances the hour and place of the convention were not announced and in some instances the 'open house' conventions were held where the anti-Bailey chairman was the only person present. Fraud and intimidation were never practiced to a greater extent.'

HELENA (Mont.) May 3.—With official returns from last week's primary in twenty-eight Montana counties canvassed to date by the State Board of Elections, the Republican ticket: For President, Harding, 238; Hoover, 244; Johnson, 19,183; Lowden, 35,191; Wood, 172.

Sam Poincxter, Secretary of State, in ordering the removal, said he did so on advice from the Attorney-General. An affidavit of withdrawal from Senator Poincxter said the withdrawal was requested as important legislation demanded his presence in Washington and made it impossible for him to campaign in Oregon.

Buckland, vice-president of the New York, New Haven and Hartford, said today. He added that they would demand no increase in express or passenger fares.

The 30 per cent is needed because of increased costs of labor and material since the beginning of the war, Mr. Buckland said.

MORSE IS INDICTED BY  
FEDERAL GRAND JURY.CHARGED WITH HAVING SOLD  
REGISTERED AMERICAN  
SHIPS TO FOREIGNERS.

(BY A. P. NIGHT WIRE.)

NEW YORK, May 3.—An indictment charging Charles W. Morse with violating the Shipping Board Act, which prohibits sale of American registered ships to foreigners, was returned by the Federal grand jury today.

With Morse were indicted Capt. W. S. Mitchell, the United States Steamship Company and the J. G. McCullough Company. Judge A. N. Hand issued a bench warrant against request of Assistant Federal District Attorney Jerome Simmons, who has been conducting an investigation lasting four months.

The indictments charged that in August, 1917, the steamship John G. McCullough was sold for \$1,000,000 to the government of Tunis, a French protectorate.

Mr. Morse entered a plea of not guilty through his attorney, E. G. Gibbons. Mr. Gibbons issued a statement in which he said it was true that in 1917, negotiations for sale of the ship to a French com-

pany were conducted, but that the sale of the ship was not approved by the State authorities.

"When a question was asked about it," he said, "the ship was sold to the Tunisian government, and was specially examined by the State Department. Every detail was known and at the suggestion of the State Department, the ship was abandoned."

Mr. Morse was held in the bail, Capt. Mitchell, was in the bail, and the ship was in the bail. No trial date was set.

He said labor could only "come in to see" when it makes itself felt in a political way.

Otto Branstetter, secretary of the National Socialist Committee, said the Espionage Act was an instance of capitalist injustice.

NEW YORK, May 3.—Recommendations designed to settle labor troubles confronting members of the International Menstrual Granite Producers' Association of the United States and Canada, which is holding a two days' meeting here tomorrow, will be substituted by a committee named tonight. LOS ANGELES TO FETE POLITICIANS, WRITERS.

RAILROADS AGREE TO RATES FOR REPUBLICAN TO DEMOCRATIC CONVENTION.

(EXCLUSIVE DISPATCH.)  
WASHINGTON, May 3.—Los Angeles will have hundreds of politicians and political writers as guests of the Chamber of Commerce in June as a result of an agreement reached here today for a special fare.

The railroads have agreed to make a low rate for delegates and other visitors to the Democratic convention. Reports of the Los Angeles Chamber of Commerce and other civic organizations were presented to the railroad officials showing that Southern California intended to show true hospitality to the excursionists from the East and Middle West.

Senator Phelan put the proposition of the rate schedule up to the officials as a business matter showing how a reduction in rates would attract heavy travel. The representatives of the transportation companies agreed to make a rate of one and one-third for round trip tickets.

The convention approaches it becomes more evident that the delegates and other officials in attendance at the San Francisco pow wow have two places firmly fixed on their itinerary, Los Angeles and the Yosemite. Special trains will leave Chicago twenty-four hours after the Republican convention closes. Washington correspondents and eastern editors plan to visit Los Angeles before the convention.

## EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to Flush  
Kidneys if bladder bothers  
you.

Nothing more regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish, clog up and cause all sorts of disorders, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful after-dinner drink; water drink which millions of men and women take now and then to keep the kidneys and urinary organs clear, thus avoiding serious kidney disease.—(Advertisement.)

## Investing without Capital

Many people now invest in high grade listed stocks and bonds without capital—that is, they buy them on the "margin" or "loan" plan. This means they can get a loan of \$10,000, for instance, by putting up only \$1,000 as margin. The balance of \$9,000 is loaned to them by the broker. They can then sell the stock or bonds at a profit and pay back the loan with interest. If the stock or bonds go down, they can sell them at a loss and still pay back the loan. This is a very safe way to invest without capital.

## VILLA A POWER IN CHIHUAHUA

Watchfully Waiting in Hills  
to Pounce Upon City.

Observers Say Rebel Leader  
Plans to Loot Capital.

Stand of Gens. Amoros and  
Escobar is Puzzling.

BY NORMAN WALKER.  
(EXCLUSIVE DISPATCH.)

JUAREZ (Mex.) May 3.—Don Pancho Villa again has the balance of power in the State of Chihuahua, and the old fox of the Mexican mountains is expected to make the most of the advantage given him by the revolt throughout his State.

Approximately 1000 Carranza Federal troops are in revolt and control Chihuahua city, according to the latest information brought to the border. An equal number of troops, presumably loyal to Carranza, is garrisoning Juarez and the surrounding settlements.

Villa with 250 followers is watchfully waiting in the Sierras east of Chihuahua city until the rebels start north to force Juarez to capitulate when Pancho plans to swoop down on the State capital and help himself to the loot lying around. Villa can recruit his force to 1000 within twenty-four hours, while Chihuahua city and the State are strong for Villa.

The Federal troops at Juarez are not keen to give battle to Villa in the field and the rebels are more for than against Villa, since both Villa and Obregon followers have a common grievance against Carranza. Whenever Villa thinks the time is right he will probably strike hard for control of the State and the revenue thereof. Nothing more was heard yesterday from the rebel column reported to be moving north from Juarez toward Chihuahua city by troop train. Wire communication is suspended south of Villa Ahumada, which is eighty-three miles south of the border, and the towns to the south of that point are supposed to be in the control of the rebels.

WHO DOES AMAROS FAVOR? Another report was received here tonight that the Seventy-seventh Battalion of Infantry was marching toward Juarez from Ojinaga, Chih. This caused considerable interest since the Seventy-seventh was Gen. Joaquin Amoros's regiment and went over to the rebellion, bag, baggage and the ear-rings which he wears in his ears on all State occasions. If the Seventy-seventh is coming to reinforce Juarez this town may be able to hold out against

the rebels, should they march north. If the Seventy-seventh is in revolt the town will be at the mercy of the two columns should they converge on this border port. Upon the receipt of a message here yesterday that the Ojinaga troops may come, Americans were warned by United States customs officials not to cross to this side. The saloons were closed at 2:30 yesterday afternoon, an hour earlier than usual, causing a temporary drought among the few Americans who ventured over after that time.

Additional outposts were stationed on the road leading to Juarez from the direction of Ojinaga and Fort Hidalgo, where the single solid shot cannon is located, was manned with a squad of artillery.

CINCO DE MAYO AWAITED. However, this is the usual procedure and there may be no rebel troops nearer than Chihuahua city. This unusual vigilance for a Mexican army almost caused a clash after midnight Saturday night. Upon the departure of Col. Augustin Mora for Mexico City, the outposts from his Fifty-seventh Infantry were ordered relieved by a detachment of Gen. Escobar's troops.

Mora's men refused to be relieved, insisting that they were loyal to the government. Escobar's men insisted they were equally loyal, besides orders were orders. Escobar's troops were finally ordered back to their barracks and the Mora men permitted to remain locally at their posts guarding the cañon bushes of the Juarez plain. Yesterday Mora's men were sent to Villa Ahumada to guard that gateway to Juarez. Such is the reward for Mexican loyalty throughout the republic, according to here now depends upon Gen. Escobar's attitude toward the revolt. He insisted by telephone and in person Saturday night that he was loyal and would remain so. If he does the rebels will have to come and take Juarez.

If he is only waiting to see which way the political pussy is going to jump he will probably know this for sure by the time the national holiday, which comes Wednesday is the day set for a general revolt throughout the republic, according to southsayers here and in El Paso safety zone.

Friends of Escobar are inclined to give the benefit of a doubt. If he remains loyal the rebels will have a hand-picked fight on their hands. Fighting is the best thing Escobar does, as one Francisco Villa will attest since June 15, 1919.

## CINCINNATI MEDICAL COLLEGE IN RUPTION.

REPORT STATE "SOVIET" MEM-  
BERS OF FACULTY SOON  
TO BE DISMISSED.

(EXCLUSIVE DISPATCH.) CINCINNATI, May 3.—A general and radical reorganization of the University of Cincinnati Medical College, now supported by public taxation, has been decided upon in order to comply with the demands of the Rockefeller Foundation of New York and thus secure a million or more dollars donation from that source, according to reports here.

The college, now the only purely municipally-owned medical institution of its kind in America, has definitely decided to oust three eminent department heads. It is said, because they are declared to be a part of a "soviet" conspiracy among faculty members to limit the influence of the board of directors to the edict of Dr. Abraham L. Flexner, head of the general board of education of the Rockefeller Foundation in New York.

The scientists marked for expulsion are Dr. William Gillispie, professor of obstetrics; Dr. Joseph Ransohoff, professor of surgery; and Dr. Roger Morris, professor of internal medicine. A number of other professors are marked for early expulsion during the reorganization. All under criticism are widely known for discoveries in medicine and surgery.

Dr. Gillispie was with base hospital No. 25 when the unit was a part of the American Expeditionary Forces.

Dr. Flexner states that several of America's greatest medical institutions, particularly those in the East, are infected with faculty conspiracies and that no such institution need hope for Rockefeller Foundation assistance unless willing to accept the absolute control of the Rockefeller Foundation general board of education.

## LONDON CHEERS AMERICAN PLAY.

British Audience Waxes Enthusiastic Over "One Night in Rome."

(BY CABLE AND ASSOCIATED PRESS.) LONDON, May 3.—An enthusiastic audience packed the Garrick Theatre tonight for the postponed performance of "One Night in Rome," which, when it was presented here for the first time last Thursday night, was broken up by a gallery demonstration. At the start of the first act when each member of the cast took a separate curtain call, Mrs. Laurette Taylor, the star, was given an ovation. The performance went with the utmost smoothness and there was no sign of anything but good will. Among those present were Ambassador and Mrs. Davis. Their box was draped with the Anglo-American colors. At the conclusion of the play, the orchestra played the "Star Spangled Banner" and "God Save the King," and Mrs. Taylor made a brief speech of thanks for her reception.

John H. Fuller of Indianapolis who spent more than a year in Pelegrino as a member of the National City Bank's staff, resigned his position at the luncheon of the Indiana University Association at the Board of Trade today.

The body of a fully developed girl baby was found on the ledge of a window directly under the Governor's office in the State House by Don Shaffer, State House policeman.

Support will be given a city zoning and planning bill to be presented to the next Legislature by the Capital Avenue Protective Association as a means of preventing the encroachment of negro property holders on the main residence streets.

FARM LOAN BANKERS. Officials in Session Week Way to Assist Farmers.

(BY A. P. NIGHT WIRE.) WASHINGTON, May 3.—Farm loan bank officials, meeting here today, agreed expansion of the agricultural industry was being retarded through inability of the system to make further advances to farmers.

While the country awaits a rehearing of the suit testing the constitutionality of the act under which the system operates, it was stated thousands of farmers were compelled to forego plans for extension or expansion of their crop planting plans. Discussions will be continued tomorrow.

All members of the conference urged against another offer of farm loan bonds in the open market now. Officials believe the government would adopt the resolution empowering the treasury to absorb the board's next bond issue and thereby avoid an entire summer inactivity so far as loaning operations are concerned.

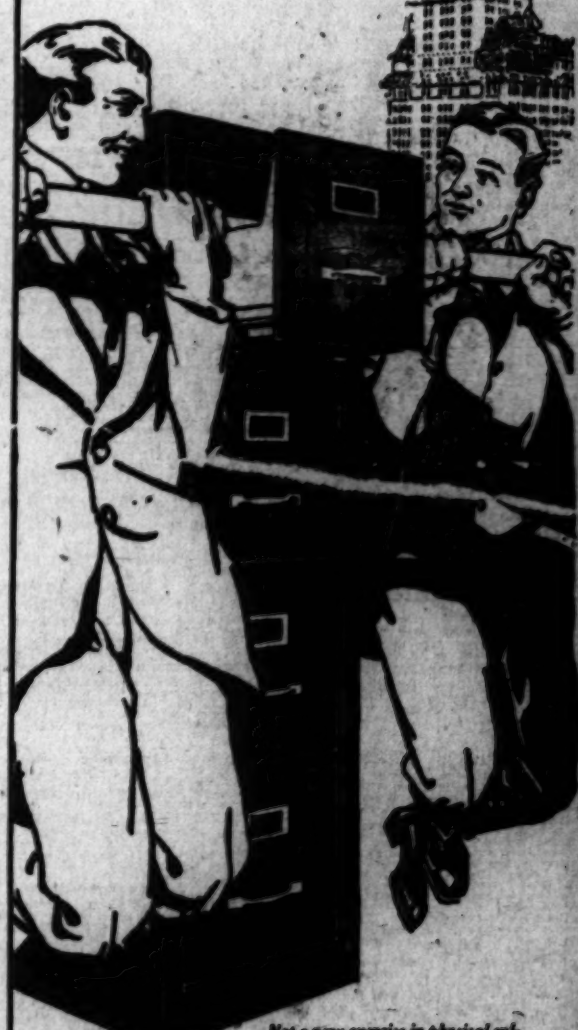

REGRET PRESIDENT OFFENDED ALLIES. (BY A. P. NIGHT WIRE.) WASHINGTON, May 3.—Senator Lodge, the Republican leader, read into the Senate record today a declaration signed by a number of prominent men expressing regret "at the reductions recently made by the President upon our ancient ally, France, and upon Italy."

The declaration referred to President Wilson's recent statement on the Plume question in which he said a "militaristic party" had come into power in France.

On Canadian Representation. (BY CABLE AND ASSOCIATED PRESS.) LONDON, May 3.—It was announced in the House of Commons today that a statement would be made on behalf of the government in the near future concerning Canadian representation at Washington.

Inferiors Shunned in Wool Sale. (BY CABLE AND ASSOCIATED PRESS.) LONDON, May 3.—At the wool auction sales today, 10,300 bales were offered. Spinners bought good merinos and cross breeds freely. Inferiors were neglected, with prices easy.

## SHAW-WALKER STEEL LETTER FILES

EVEN after more severe tests than this a Shaw-Walker file will still open and close smoothly and easily—coasting on its rails of steel. And it will stay closed without rebounding.

Real skyscraper construction made into solid one-piece steel by electric welding. No nuts—no bolts—no rivets—no rods—no screws.

When you have tried out a Shaw-Walker in your office, right alongside your regular equipment, you will readily see why we guarantee your money back if you ever used a file you liked better.

Phone us to send you a Shaw-Walker file today.

our people should disregard all clothing. Overall are a fact. Khaki clothing is not. Even the khaki who of a necessity have to wear it, should work discard them when the day's work is done. But khaki clothing, same can be worn any and all times, and we here in California should not only wear them now, when other clothing is high, but should wear them at all times, for they are the most useful clothing in our state.

There are a very few overall factories, but with khaki clothing, we have a great many manufacturers, and same are to be more readily obtained in large quantities than they would be the case with overall. This would only be for a short time, when with khaki, we should wear them all the time, especially in the warm months.

I think if your paper would support our view, we would be doing a great good than that of the overall.

Equality Above All.

SERRA MADRE, April 19.—The Editor of The Times: There may not be given to him, but it is evident from a careful study of Herbert Hoover's personality and achievements that he is one of the extraordinary characters who appear only once or twice in a generation—sometimes only once in a century—to prove that the race progresses in a spiral and not merely in a circle.

It is equally certain that Mr. Hoover at the present time is one of the great powers. He possesses the magic touch. Before him, the most difficult problems seem to be solved. He is a man who is not only a man of action, but a man of thought. He is a man who is not only a man of action, but a man of thought. He is a man who is not only a man of action, but a man of thought.

Moreover, the efficiency of the Hoover organization built up by Mr. Hoover, taken together with the results of his work, prove him to be one of the great powers of the world. He is a man who is not only a man of action, but a man of thought. He is a man who is not only a man of action, but a man of thought. He is a man who is not only a man of action, but a man of thought.

Some will deny that it is only through the periodical appearance of individuals like Mr. Hoover that the world progresses. But the fact is that the world does progress, and it is through the work of men like Mr. Hoover that it does so.

## PLAN TO LOOT CITY'S POWER.

**North, Center of State Seek to Milk Los Angeles.**

**Commerce Board Heads Show Danger of Pooling.**

**Strong Resolution Passed by Chamber Directors.**

Shall Northern and Central California "milk" Los Angeles of its power? Fearing that this will happen if the apparent plan of the State Railroad Commission to pool all the power in California and divide it up equally is adopted, the board of directors of the Chamber of Commerce yesterday passed a resolution urging that the city should remain in a position to receive the benefit of its supply of cheap hydroelectric power from its own system and that the industrial and business development of Los Angeles should not be limited in any way through the pooling of its power supply or by the denial of electric energy to any of its citizens.

Seven years ago this city, at a cost of over \$12,000,000, built an active duct to forestall any power or water shortage. There is consequently plenty of both utilities available for this section. In Northern California, however, there is a big power shortage and a moderate one in the central valley. The Los Angeles consumers of the Edison company and

Whereas, the surplus energy thus turned over to the Edison company for distribution to its consumers in Los Angeles city, under an operating agreement, is greater in excess of the shortage which would reasonably be allocated to Los Angeles out of the Edison company's total supply; and

Whereas, the result of such arrangement between the Edison company and the city, through the terms of the operating agreement, is in effect such that it releases a large amount of electric energy to other consumers on the Edison lines not in the city, and reduces the cost of energy to them;

**AGAINST LIMITATION.**

Be it therefore resolved, that in the opinion of the Chamber of Commerce the city is and should remain in a position to receive the benefit of its supply of cheap hydroelectric power from its own power system and that the industrial and business development of Los Angeles should not be limited in any way through the pooling of its own power supply, or by the denial of electric service to any of its citizens; and

Be it further resolved, that it should be the desire and policy of the city to give every aid and encouragement to other communities not so situated to the fullest extent consistent with the primary policy of the city in providing itself with this necessary resource, but it shall not be understood that the Chamber of Commerce recommends the selling of power by the city of Los Angeles at a lesser price than the cost of production; and

Be it further resolved, that in the light of present circumstances, and for further insurance that the industrial and business development of Los Angeles may proceed without interruption along the lines already laid out by the Chamber of Commerce, the development by the Bureau of Power and Light of additional large blocks of hydroelectric energy should be the immediate concern of the city authorities.

**SLANDER FIGHT OPENS.**

**Girl's Suit Based on Van Camp Divorce Charges.**

The first skirmish in the \$50,000 slander suit of Miss Ruth Cruzen against Mrs. Euphrasia Van Camp, in which Mrs. Van Camp is accused of having charged Miss Cruzen with misconduct with Frank Van Camp, wealthy sea food manufacturer, in a restaurant near San Pedro, resulted in Judge Jackson's court yesterday in the defendant's motion to strike from the complaint being sustained in one count and overruled in another.

Atty. Ritter, representing Miss Cruzen, sought to get a positive statement of misconduct instead of an allegation on information and belief. This was not sustained.

Miss Cruzen recently was exonerated as the other woman in the divorce suit of Mrs. Van Camp in which frequent reference was made to the eucalyptus grove in which Mr. Van Camp drove her.

**FEWER PERSONS HURT.**

**Vigilantes Given Credit for Helping Reduce Street Accidents.**

To the efforts of the Los Angeles Vigilantes is attributed the large reduction in traffic accidents in this city during April, when there were 174 less accidents reported to the police than in March, according to a report filed yesterday by the local traffic bureau.

Although there were six fatalities in street accidents during the month, there were seventy-one fewer persons injured in traffic accidents than in March. A total of 1470 accidents were reported in April, and a total of 1446 in March. There were 238 persons injured in this city during March, and 217 in April. Of the 217 injured in April, 136 were pedestrians, of whom two were killed. Carelessness on the part of pedestrians is largely responsible for accidents in which they figure, say the authorities.

## Bread Can Be Made A Perfect Balanced Ration

But that doesn't mean it is so made.

Some bread which sells at a good market price is far from being a balanced ration. It is made of flour from inferior wheat, with cheap shortening and a general poverty of ingredients, is not properly baked so as to develop the food value, and may even be unclean. It may put up a very good appearance and have a fair flavor when fresh and yet be sadly lacking in nourishment value.

How different the case with bread which is correctly made, of high quality ingredients, in a modern sanitary bakery.

Would you like to read the true story of modern, high quality, scientifically made bread—of bread which is made so as to form, in itself, a perfect balanced ration—a complete food?

We are going to tell the public this story—the story of modern bread-making. We are going to tell it in all its scientific detail.

It will not be a story for children. It will be a study in modern food science.

It will not be mere ordinary advertising.

It will be worth reading.

 According to Washington, correspondents of the White House are doing the best it can to bring about the nomination of Johnson by the Republicans with the idea of making the League covenant the paramount issue of the campaign.  Mayor Lammie speaks of Johnson as a big, two-fisted American. Hiram also has a couple of lungs that are running on H. They never tire. Not even when he spoke daily and kept his tongue wagging. The voice is his vehicle of expression and what you hear is his express wagon. But what do we want with a two-fisted man who spends his life shaking one at England and rather at Japan and collapses his throat talking about himself?

**A DIAMOND WIG.**  
 That baseball game between the Boston and Brooklyn clubs Saturday was a world-wonder in the annals of sports. Here were twenty-six innings played to a conclusion and the game was still on the mound and going strong at quitting time. Over seventy million baseball games have been played since Al Spalding discovered America and this game will pass into history as one of the big three.

**THE KEYSTONE.**  
 Gov. Sprout and Boies Penrose have decided to approve Senator Knox as their choice for the Republican Presidential nomination and that makes it fairly unanimous as far as Pennsylvania is concerned, although Gov. Sprout himself was the favorite son until this declaration. The Keystone State generally turns up in the convention with a candidate of her own, but she doesn't usually figure much in the running, as any Republican can carry Pennsylvania, and the party prefers men who are from New York and Indiana and against one from Pennsylvania.

**CHOICE YES.**  
 A picture of a town devastated by storm, fire or flood. Would the citizens send for Hoover or Johnson?

If you were a stockholder in some business where the expenses were exceeding the income, would you prefer the adjustment attempted by Hoover or Johnson? The support of a family today is a good deal of a business for the average man and in many cases a losing one.

Were you a member of a farming community with crops rotting in the field from lack of transportation or other causes, would you seek a solution of the difficulty from Hoover or Johnson?

Were you living in the East and a real famine threatened, would you turn to Hoover or Johnson?

If a big business man, seeking a manager, whom would you employ, Hoover or Johnson?

If a small business man, desiring advice, whose judgment would you prefer, Hoover's or Johnson's?

If a working man, seeking relief from excessive living expenses, to whom would you look for quick and practical relief, Hoover or Johnson?

In case of great emergency or catastrophe, involving property and life, would you turn instinctively to Hoover, the man, or to direct and forceful action? Would you even remember that there is such a person as Johnson, professional politician and loud talker?

If a father, would you point your son to Hoover, self-made, modest, direct, honest, competent, constructive—or to Johnson, professional office-seeker, defender of criminals, oily and unscrupulous, all things to all men.

In short, is there any condition in life, save that of law-breaking, in which you would prefer Johnson to Hoover?

The United States is merely a vast community, involving these conditions of life, with the every-day problems of the home many times multiplied.

**TODAY'S ISSUES—HOOVER, JOHNSON, LEAGUE OF NATIONS.**

Hundreds of persons have written to The Times or called The Times on the telephone during the last few days to ask whether, in our opinion, Hoover can carry California. The Times says without hesitation or fear of successful contradiction that Herbert Hoover CAN carry California today. But whether he WILL carry California, The Times does not undertake to say. It is the difference between saying "I can go to the polls today" and "I WILL go to the polls today."

There are more than 1,000,000 men and women registered in California and privileged to vote for delegates to the National Republican Convention. Every one of them can get a Republican ballot by asking for it, regardless of how they registered; for this is an "open primary," in which any registered voter can vote any ticket. The Times is fully convinced that two-thirds of those registered would like to see the great Food Administrator elected President of the United States. A number of those who served in the Food Administration service during the war have said that they are for Hoover, not for personal reasons, but because they are convinced that it is going to be Hoover or a 30-cent loaf next year. They have seen Hoover at work and they are convinced that he is the one man who can be trusted to reduce the high cost of living.

Now many of those million registered voters are going to the polls today? The answer to that question will spell Hoover's success or failure in California. If one-half of them go to the polls, if as many as 500,000 votes are cast, Hoover will win by a majority of not less than 50,000; but if not more than 300,000 votes are cast Senator Johnson may win.

Correspondents of eastern newspapers who have visited the coast during recent weeks have united in asserting that the Johnson machine in California has an organization equal to that of Tammany Hall. Johnson's supporters know they are in a minority, and the whole purpose of the organization is to get enough of that minority to the polls to outvote the majority that stays at home. If you are not for Hoover strong enough to go to the polls, you are not for him at all. You are classed with those who wished that America might win the war, but refused to buy any Liberty Bonds. American States are notoriously misgoverned because a minority that votes almost invariably triumphs over a majority that STAYS AT HOME. Some of the best men in American politics have been beaten by the stay-at-home vote. That is the menace to Hoover's success today.

Keep in mind that the California electors determine today not whether Hiram Johnson shall be nominated for President, but whether Hoover shall be nominated. Mr. Taft pointed out in an article which appeared in The Times of Sunday that, EVEN WITH CALIFORNIA, SENATOR JOHNSON HAS NOT THE SLIGHTEST CHANCE TO WIN THE NOMINATION. He has campaigned for five months, covering the whole country. He has not a vote in New England, not a vote in New York or Pennsylvania, not a vote in the whole South. These groups alone send over 400 delegates to the convention. He campaigned for votes there and failed to get them. With California-Johnson would go into the convention with less than 100 votes, and the successful candidate must receive at least 495 votes. His partnership with Hearst, a Democrat with pro-German affiliations, is in itself enough to make victory in a Republican convention impossible; for the choice of delegates already made proves that the Republican party has not lost its sanity. A VOTE FOR JOHNSON IS A VOTE THROWN AWAY. IT SACRIFICES THE ONE CHANCE CALIFORNIA HAS TO MAKE A FAVORITE SON PRESIDENT.

Hoover CAN win in California and in the Republican convention. He has made neither doubtful nor dishonorable alliances and is opposed only by the politicians. It is true that he has no delegates. But that is because California is the only State in which he has permitted a list of delegates pledged to him to be nominated. His love for the State in which he received his education, that gave him a native daughter for a wife and in which he began his business career caused him to make an exception in the case of California. Shall California be less generous to Hoover? That question will be decided today.

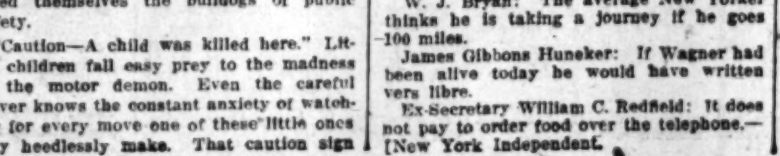

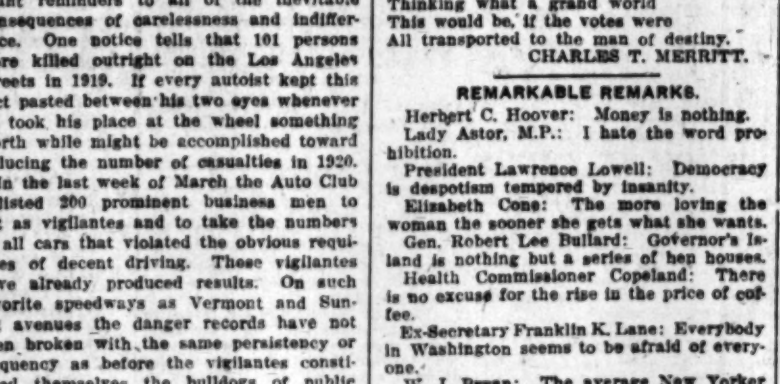

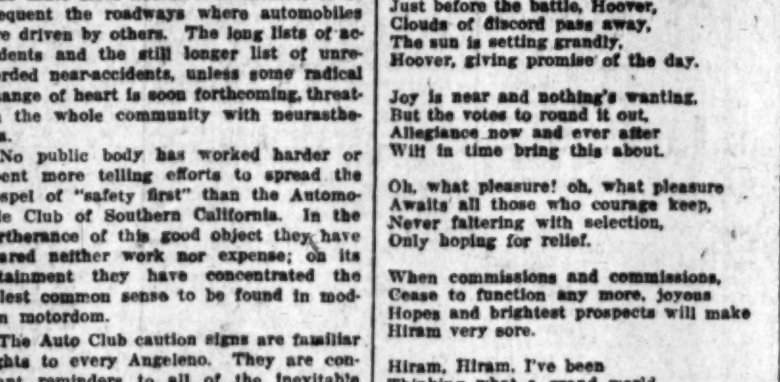

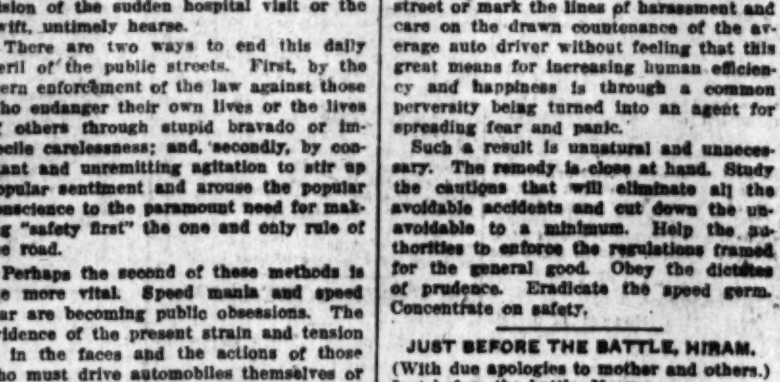

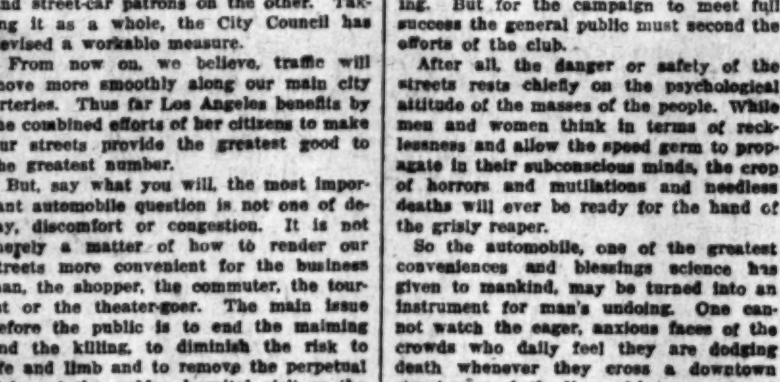

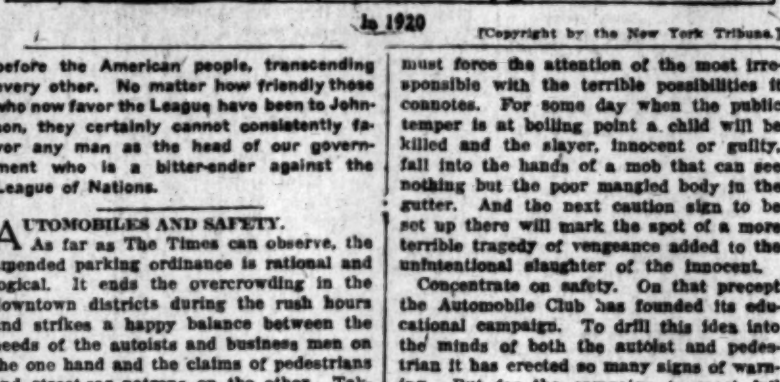

There was another compelling reason. Hoover is an ardent champion of the League of Nations, but with reservations which will not bind us in advance to send our sons to fight on foreign fields. Senator Johnson is opposed to America's being a part of any League of Nations. The following is an extract from Chester Rowell's analysis of Johnson's position, printed in Saturday's Evening Express:

Johnson's practical action was against any League of Nations, either this or any other, and so far as he has succeeded in stating it intelligently, this is his theoretical position also. The few grudgingly and contemptuously concessive sentences in his speeches, hinting at a possibly constructive policy toward some other sort of a League of Nations, are too indefinite to convey intelligible meaning. So far as he can make them out, they mean that he might not object to a League of Nations provided we were not members of it, and provided those who were members had no obligations under it.

Rowell was Johnson's Boswell in California for ten years. But Johnson has become so hopeless a bitter-ender that even Rowell has been compelled to turn against him. What are those thousands of women in California who appealed to Senator Johnson to cease his opposition to the League of Nations going to do today? Johnson made sport of their petitions. Are they going to honor him with their votes? That question, along with the others, will be answered in the columns of The Times tomorrow morning. The voters must decide. Only let them make no mistake about it: a vote for Senator Johnson's delegates is a vote against the League of Nations, with or without reservations. It is a vote for abandoning our allies and making a separate peace treaty with Germany. That is why the German-American press is openly and ardently supporting Johnson.

No voter who favors a League of Nations can consistently vote for Hiram Johnson. Whether we are to have a League or not to have a League, so far as the United States is concerned, is the one paramount issue

**That Old Sweetheart of Hers.**

**COMMUNITY APARTMENTS.**

BY ALMA WHITTAKER.

It sounds so sweetly reasonable, this new community-apartment idea. It banks so confidently on brotherly and sisterly love, unity and hearts that beat as one. It boggles the imagination with visions of living in a mansion on a tenement income, of shedding the maximum of household responsibility, of acquiring the maximum of style.

Ostensibly, the idea is to defeat the wicked landlord and snatch his dinky rewards for the tenant. He is a poor profiteer, as it were. Each tenant buys an apartment outright, with title to his heirs and assignees, etc., duly qualified with a few thoroughly-vice restrictions on the side. A board of management is elected from among the tenants, who will presumably be delighted to serve without pay. Six per cent. of the investment is estimated to cover the running expenses, the promoters enjoying the optimistic idea that running expenses will stay fairly put. In this way glittering promise is held out that a \$75 apartment will cost about \$15 per month.

In fact, the scheme has all the earmarks of a con. It has been tried in New York—and the reports are a bit conflicting. Because, you see, one is an owner, but not quite an owner. There are these restrictions for one thing and it is so embosomedly desirable that the eighty or so tenant-owners should enjoy the same tastes, the same standards of social decorum, the same attitude towards children, dogs, cats, parrots, pet snakes and monkeys, musical instruments and so forth.

Every new tenant or subtenant has to be passed upon by the internal board of censors, and even after that if they don't conform to the required standards they can be turned out. Think how very awkward, for instance, if these standards exclude innocent, childless couples with properly modern intentions subsequently assumes a little human responsibility. The story can be so lacking in discrimination and so lacking in proper comprehension of community apartment houses. Yet if said couple have paid anything from two to four thousand for their private roost, would a one-minded board of management modify its censorial duties? And just one fatal precedent of magnanimity might prove disastrous to that precious restriction, for if the Smiths can dare and get away with it, why not the Brownes? And it might be twice the second time, and of course the foolish little things will grow up, and in next to no time the sumptuous vestibule will become a playground and most any mightily desirable the right of access to fall down its parents' half-owned elevator or play Indian down its parents' part-owned stairs.

And think of the embarrassment when a lady part-owner, whose reputation has been unimpaired at the outset, blossoms out with dubious callers. The case might be distinctly controversial, the lady's culpability a matter of opinion. A mere landing could raise her real or politely demand possession of the apartment, but a board of management would have no such problem to solve. The lady has owned, she has lived, she has evidence, while suspicious, is meager.

On the other hand, there is the case of the other tenant-owners who, with right of preference, their threat to move if such and so is not conducted to their liking would cut very little ice. One can sell one's apartment, say the promoters. Myra. But selling is so laborious a business that the purchaser must also pass that board of censors.

Altogether, one foresees a perpetual court-martial on the tapis, and a hot time for the board of management. Censorship, you see, is most important part of the scheme—and tastes do differ so radically, even among the nicest people. Just take that question of dancing, for example. There will be a dancing hall, Mrs. Martha Law of the W.C.T.U., for instance, could readily qualify for a tenant-owner herself, but think how she might feel about the board of management. When the board of management is not censoring the tenants, the tenants will certainly be censoring the board of management. And an owner-tenant can have such a strident voice, loud with rights and possible privileges.

In fact, the tenants of a community apartment-house will most assuredly take on all the difficult privileges of relations, who have the right to refuse to recognize the interest in each other's affairs. We all know how we feel ourselves when we are the subject of a family council, which assumes such serious responsibility for our general conduct. Mere neighbors can be embarrassing, but devoid of "rights," they can be evaded. But the purchase money of a community apartment buys rights, lots of rights, responsibilities, lots of them, and that little phrase about "living our own life" becomes replete with modifications, qualifications, tutelage and acquiescences.

Some right soul suggested that it might work, if, for instance, all the tenants were identified with the same calling—musicians, artists, theatrical people, W.C.T.U. members, Methodists, divorcees, Irishmen, all buying space in an apartment house to their kind. Yet whoever heard of two musicians who approved of each other, a divorcee whose case was not exceptional, or two theatrical lightweights who viewed the "drama" and its relation to society? agreed. As for the artists and the poets, conservative and futurist, any apartment-house would be a bed of roses.

However, the various promoters are still sanguine, the floor plans and perspectives are quite fascinating, and the sites are so entrancing for anything.

**AIN'T IT JUST SO?**

THREL FALL.

Billie Lale says he wishes to goodness people wouldn't be all the time nagging him about the weather and saying: "My, don't you wish it would clear up," or "Don't these windy days get your goat?" and he read a statement one time that a hen was born with only so many eggs in her system and when they were laid that was the end of her partnership with the bacon industry. And he says it may be true or not about the hen, but he believes a person is only born with a certain amount of vitality in him and it stands to reason that what he burns up worrying about the weather or the political situation isn't going to be on tap when his oil stock goes "duy," or he gets the rheumatism or the toothache, or his best pair of shoes wears out or he gets a new pair of pants and Bolt & Grossman's Books say that the last pair is still unpaid for.

THREL FALL.

**RIPLING RHYMES.**

CHANGING STYLES.

Last year I bought a limousine, the latest thing in boats, and it was painted black and green and cost me many broods. "It is the very latest word in cars," the agent cried; "all other cars will look absurd, this noble bus beside. The pride of ownership 'will give, and fill your soul with bliss, and it will stay while you live, I wot and ween and heeds." Next year my wife declares she'd rather walk, and proper pride maintain, than ride with me around a block in that ancestral wain. And thus the motor is played upon the human mind, whose last year's model dumps decayed and ready for the dump. My van is just as fine as silk, so far as chugging goes; but people of the critic ilk turn up the snooty nose, its home is badly out of date, the windshield slant is vile, the body lines, which should be straight, bulge out in ancient style. And so I'll have to buy a gig that's up-to-date and new, and in six months, I'll bet a fig. "Well, it has been, too." WALT MASON.

**EDITORIAL OPINION.**

Charles Francis Murphy, the big chief of Tammany Hall, is opposed to the nomination for President by the Democrats of Herbert C. Hoover. Boss Murphy says "that Hoover would not make a good President. Not for the office-seekers, the professional politicians, the loot grabbers, the gentlemen interested in soft pickings or the philanthropists, the men of the day, the date, the windmill slant is vile, the body lines, which should be straight, bulge out in ancient style. And so I'll have to buy a gig that's up-to-date and new, and in six months, I'll bet a fig. "Well, it has been, too." WALT MASON.

There never was a strike in the history of American industry about which public opinion was so nearly unanimous as the strike of railroad employees, whose outrageous assault upon the comfort and safety of their fellow-citizens is now passing into history. The people of the United States have been stirred by the thought of the disruption of industry, and being so stirred they have come to a healthy realization of their obligations and opportunities. They have no disposition to withhold from any class of labor a share of the cost of the nation's war-profits tax of 80 per cent. in order to provide a fund out of which to pay the proposed soldier bonus. Enactment of such a measure would be nothing less than a national calamity.—[Pacific Commercial Advertiser, Honolulu.]

As if the business development of the country were not already sufficiently hampered by the present cumbersome and inequitable system of Federal taxation, a bill has been introduced in Congress to impose an excessive war-profits tax of 80 per cent. in order to provide a fund out of which to pay the proposed soldier bonus. Enactment of such a measure would be nothing less than a national calamity.—[Pacific Commercial Advertiser, Honolulu.]

Kansas has in hand the interesting issue of law enforcement against "organized labor." The miners, or their leaders, refuse to recognize the authority of the new industrial court, and ignore its decrees. In consequence, one of their chief officials has been sent to jail for contempt of court. How far the conflict between the court and the unions will extend is an interesting question. But it seems certain that the court will have to continue vindicating its authority by punishing all who resist its decrees. The integrity of the State government is to be maintained. The industrial court was constituted with just as much authority of law and of popular will as any other tribunal in the State. If it can be ignored, then the authority of any court in Kansas is to whom its judgments are unavailing. And the whole government of the State will be undermined. As we understand the temper and the purpose of the men now at the head of affairs, and indeed of the great majority of the people of Kansas, it does not mean to have any such thing as that happen.—[Harvey's Weekly.]

**Old Indictment Against Greeley.**

A firm employed to renovate the old Greeley house at Clatskanie, W. Va., recently found an indictment returned by a Harrison county grand jury in July, 1856, against Horace Greeley, publisher of the New York Tribune. He committed a felony, it states, by circulating in the county copies of the Tribune containing articles tending to incite negro slaves to insurrection.—[Pittsburgh Dispatch.]

# HOOVER VICTORY IS SEEN TODAY.

(Continued from First Page.)

deduction, upon which he bases his prediction of an overwhelming Hoover victory, a greater part of the 11,000,000 registered as regular Republicans, providing they go to the polls, will vote for Hoover as against Johnson. Mr. Lyman predicated this belief on two vital truths in Johnson's present position—his intense, destructive radicalism and his alliance with W. E. Hearst and the group of ten millionaires who have provided his lavish campaign fund. Hearst's backing, it is admitted, has done the radical action irreparable damage in California and the nation.

In addition to these thousands of Republican votes, Mr. Lyman is counting on two other important factors—the undoubted support of thousands who registered as Democrats and who oppose Johnson on his stand on the League of Nations, and because of his virulent light on President Wilson, coincidentally with the President's serious illness and subsequent collapse. The Democratic vote for Johnson, it is admitted even by the warmest admirers, will be negligible.

Another source of Hoover strength, according to any reasonable analysis, will be the great number of Wood and Lowden supporters who will vote for the former Food Administrator because they will have the opportunity to express a choice for their Presidential preference in this primary, neither Gen. Wood nor Gen. Lowden having made a contest here. This is an element of Hoover strength which the Johnson headquarters is in great fear, realizing that it will prefer a constructive Republican of the Hoover type to a radical of the Johnson type. The also remember very vividly that Johnson alone was responsible for the Republican defeat in 1916 and, according to every expressed belief, will rebuke Johnson at the polls today.

LABOR AGAINST JOHNSON. Johnson's overwhelming defeat is also predicted by the heads of the Hoover Union Labor Clubs of California, who have made a powerful light on the radical Senator. After urging yesterday that union men, as American citizens, today go to the polls and vote, they presented their opposition to Johnson in this way: "No labor man can consistently vote a straight Johnson ticket. Such a vote would be a vote against labor. A vote for the Johnson ticket is a vote against labor, against the League of Nations and against permanent peace. Hoover stands for the League of Nations, as does the American Federation of Labor."

"Hoover worked night and day during the war, without compensation, to help the government win the war. During the war, and since, Johnson has been doing politics and neglecting his duties as U. S. Senator. Hoover has been co-operating with Secretary of Labor William B. Wilson in trying to solve the great economic problem and maintain industrial peace and justice to all workers and employers alike."

"We appeal to all trade unionists of California to go to the polls today, demand a Republican ballot and vote the Hoover ticket straight. Hoover, the friend of humanity, is entitled to our vote."

There was less confidence around the Johnson headquarters, 611 South Spring street, yesterday, and no predictions as to the probable size of the Johnson vote. The speaker, manager of the Johnson local campaign, looked grim, and those who discussed the outlook made no claim for an easy victory.

Dr. W. A. Morton, an ex-Confederate soldier who never before voted anything but the Democratic ticket, will vote for the Hoover Republican delegates today, his son, Claude Morton, stated last night. The latter, also a strong Democrat, will vote for Hoover.

JOHNSON MEETING AT BELL IS BOOMERANG.

ATTACK ON HOOVER CREATES SMALL RIOT, EVOKES A VIGOROUS DEFENSE.

A Johnson mass meeting at Bell last night ended in a small riot and long before Los Quince, the speaker, finished his address more than half of his audience had left. The remaining portion stayed for the purpose of defending Herbert Hoover and his principles.

The near-riot occurred when the speaker chose to criticize the former Food Administrator, devoting his entire time to belittling the candidacy of Mr. Hoover.

At the close of his address the speaker invited the audience to come forward and refute his statements. Then it was that the trouble started, as the rostrum was instantly crowded with people resentful of the attacks on Mr. Hoover.

In the expressed opinion of voters familiar with the political situation at Bell, the meeting last night will prove a boomerang to the Johnson forces. These voters stated that formerly Bell was for Johnson strongly, but after the unadvised attack on Mr. Hoover, it is certain that he will carry that locality by a large majority.

APPEAL FOR BALLOON SCHOOL BOND ISSUE.

A maximum benefit for minimum expenditure is the sentiment of Chambers of Commerce, the military organizations and other civic bodies, relative to the \$25,000 bond issue that will be submitted to the voters today on a separate ballot.

Briefly stated, the vote is to determine whether Los Angeles county will present to the government certain land for use of the War Department. This land already is being used by the War Department as the Arcadia Balloon School and it is to ratify legally, this donation during the war, that the vote is taken today.

It is hoped to make the expression of the people unanimous, evidencing that the patriotic so highly developed during the war has not died down in Los Angeles.

GIVEN MORE TIME.

Attractive Lucile Langdon has still a chance to win her court case, as Judge Crail has given her attorney, E. G. Galt, further time in which to file new briefs in her suit for an annulment of her marriage to Clifford G. Kaufman.

A novel point has been raised in regard to the age of consent, the "coast" attorney having examined the old English statutes on the subject and the court has allowed him ten days in which to file authorities.

### MARY'S SERVED WITH SUMMONS.

Papers in Nevada Case Also Handed to Owen Moore.

Miss Pickford, Found at Her Studio, Thanks Officer.

Defendants Have Forty Days in Which to Answer.

Personal service of the summons and complaint in the case of the State of Nevada against Mary Pickford and Owen E. Moore was made yesterday upon Miss Pickford at her studio in Hollywood. The summons, it was said at the Sheriff's office, had already been served by mail, but the personal service was made in order to leave no legal loopholes.

Deputy Sheriff Pfaff, who handed the papers to Miss Pickford at her studio, served them upon Owen Moore at his residence, 543 South Kingsley drive, last evening by appointment. Mr. Moore sustained an sprained shoulder getting into a moving auto at his studio yesterday and, being under medical treatment, could not be reached during office hours.

When Officer Pfaff served Miss Pickford he entered with the legal documents wrapped in blank paper and did not open the packet until some friends had left the office. His mission had already been told to Miss Pickford. He handed her the papers and she thanked him.

"Is there anything to sign?" asked Miss Pickford.

"Nothing," replied the deputy.

"Well, I am much obliged," said Miss Pickford.

The summons gives the defendants in the action forty days, not including the date of service, in which to answer the complaint.

The action was brought by the State of Nevada on the relation of Atty.-Gen. Fowler against Gladys M. Moore, known as Gladys M. Fairbanks, and "O. E. Moore," known as Owen E. Moore, with the object of annulling the divorce granted Miss Pickford from Mr. Moore at Minden, Nev.

### NO EXTRADITION IN CASE LIKE MARY'S.

MAX WANTED BY NEVADA AS DIVORCE PERJURER LET GO ON TECHNICALITIES.

After hearing arguments yesterday, Judge Craig granted a writ of habeas corpus on behalf of Floyd William Weaver, accused of perjury in connection with a divorce suit brought in Nevada by his wife. Mr. Weaver was charged with swearing that Reno was his permanent residence, and with taking the next train for Los Angeles after his wife obtained a divorce.

The court held that the warrant of extradition, by which the State of Nevada was trying to extradite Mr. Weaver for trial, was insufficient, in that the allegations did not specify the particular crime charged, and that the affidavits upon which the complaint was founded were taken under oath by a notary public who failed to state whether or not he was a magistrate. It was held necessary that such affidavits be sworn to before a magistrate.

Mr. Weaver was discharged and his bail exonerated.

### INTERCHURCH DRIVE NEARING ITS GOAL.

TWO AND HALF MILLION ALREADY SUBSCRIBED BY SOUTHLAND PEOPLE.

With churches of the Southland reporting a total subscription of \$2,446,502.34, the Interchurch World Movement's drive in this vicinity is rapidly nearing its goal. Reports came yesterday that show the various participating denominations stand as follows: United Brethren, \$15,300.65; United Presbyterian, \$150,000; Congregational, \$12,304; Baptist, \$1,572,468.28; Christian, \$447,000; Presbyterian, \$210,000; Friends, \$25,500. This represents only the allotment that has been set aside to be raised from church members, with much of the territory as yet uncovered.

Individual churches are showing high standards, with Temple Baptist Church within \$25,000 of its \$250,000 total, the Westlake Presbyterian Church several thousands over its quota, the Culver City United Presbyterian Church more than \$200 above its budget, and the Whittier Friends Church, which has a membership of 1300, raising an average of \$25 for every man, woman and child. Thirty-seven Baptist churches are already over the top.

At a luncheon yesterday at which Dr. J. C. Pinkerton, Los Angeles director, was in the chair, the second phase of the campaign, that of soliciting the friendly citizens group, was enthusiastically launched. Motley H. Flint, vice-president of the Los Angeles Trust and Savings Bank, has accepted the trusteeship of the citizens' fund. C. M. Knox of the Dubuque Company has been chosen to captain the team of downtown workers, and Dr. J. Whitcomb Brounger is captain of the central district.

### BUSINESS MAN AND HIGH MASON DEAD.

James K. Burke, a thirty-second-degree Mason and a member of Moneta Lodge No. 121, Knights of Pythias, died yesterday. He had resided in Los Angeles more than thirty years and leaves a widow, four children, two sisters and three brothers.

He was a member of the real estate firm of Burke Brothers and resided at Moneta and Blauvelt avenues.

**SURRENDERS SELF.**  
Private Leon Grannan, of San Diego, who served with the Thirtieth Infantry in Siberia, lately stationed with Co. I, Nineteenth Infantry, at Camp Harry J. Jones, Douglas, surrendered himself at Red Cross headquarters here yesterday as absent without leave from his border post. He will be returned to Douglas.

# It reached your eyes--- Did it reach your HEART?

You've seen the interchurch advertising. In newspapers. In magazines.

You know that 30 great denominations are co-operating in a world plan to make each church and each denomination render bigger, broader service for all mankind. You know something of the needs that must be met—

—More and better hospitals—more and better christian schools—more doctors abroad—more teachers abroad—a living wage for ministers—Americanization—meeting the rural problem—an expanding program in our American cities—an adequate program of evangelism for the whole—to make the Spirit of Jesus dominant in our national and world problem and program. EVANGELISM.

You've read of this—it reached your eyes, but has it reached your heart?

Millions of members of our churches have already responded. Generously! The response is growing every day, every hour. But hundreds of thousands who are not connected with the churches, but are friendly to the evangelistic and philanthropic program of the churches, have not been reached—hence, this direct EVANGELISTIC AND PHILANTHROPIC Appeal.

If you have not been asked to give your share to this, God's work for mankind, give now and give from your heart.

# Here's Bluebeard's Own Defense of Himself. FULL TEXT OF WATSON'S APPEAL TO THE PUBLIC.

## Bigmist and Wife-Killer States He is Sick and Insane; Cites the Risks Taken; Asks Pity, not Blame.

BY JAMES F. ("BLUEBEARD") WATSON.

(Following is the full text, without alteration, of the remarkable appeal made by Watson yesterday before the jury at Los Angeles in his defense as bigmist and wife-killer, as the man's "unaided verbal statement written in longhand by him.")

I have often been told the law will take care of me if I am ever convicted. But now I realize that it will not. It will leave my family in poverty and my children orphaned. I am asking you to show mercy to a sick man who has done wrong through ignorance and lack of knowledge. I am asking you to give me a chance to live and support my family. I am asking you to consider the risks I have taken and the pain I have suffered. I am asking you to pity me and spare my life.

First Likeness of Watson Made Here.

Bluebeard Watson and His Fifth Victim.

The large picture was made by F. M. Litchfield, Times staff photographer, on the steps of the County Hospital as Watson was being brought down to start on his trip to El Centro last night. At the left is Chief Deputy Sheriff Al Manning and next to him is Sheriff R. Lee. To the right is Sheriff Harvey Bell behind. The inset is of Beatrice Andrewartha, the fifth wife whom Watson admits murdering. The picture of Watson is the first real photograph of him since his arrest.

of one of a number of people would have exposed my position, still I did not think of danger. In fact this same has been repeated in smaller places where the risk was greater than stopping to consider the risks I was taking. Taking all these acts together with the various things I did, and the way in which I did them, and the risk I was taking all this time, having everything in mind where I could be traced to my dealings with nearly every person I had ever been mixed up with, it is even reasonable to think they are the work of a sane man, who was in a position to control himself or understand the risk of exposure he was running.

ASKS FOR CURE.  
I wonder if the public cannot see the logical position of my case and instead of clamor for revenge give me a chance to recover. If they will do this I believe the public will not ask that I should receive the same punishment as if I were a normal person.

If I were a normal person, if I were not why not try to cure me and maybe what was once a man can be a man again. If I can't be cured, I can be kept where no harm will be done to anyone. If I can be cured it will not do society any wrong then, why not try to cure what is clearly a disease, the same as the thousands of others you are treating. My very act shows I am to be pitied more than to be blamed for having developed into this strange and uncontrollable condition, for anything else but a normal man. I believe expert medical advice would show I should be treated and given a chance to recover. "OTHER PERSONALITY."  
I have no means to pay a paper to take up the facts and point out by reason and logic the very acts and actions which show no man would do what it appears I have done. The question is how I, a single friend who will do all they can to try and have me placed and medically treated, the same as thousands of other who are not themselves, I beg for someone to believe me when I say I am not naturally bad, but instead a victim of disease that should have proper medical treatment. All I expect of the public is to believe that I am telling the truth and that I should be judged by taking into consideration my condition. My attorney Mr. Marmaduke has certainly earned my gratitude for saving my life he has made it possible for me to be cured of my terrible mental condition, and I thank the public will know that it was not me, but my other abnormal personality which did the thing and not me in my natural condition.

out of some money, and then disappeared. AS A MULATTO.  
An anonymous letter written in a girl's handwriting at Long Beach stated the writer was a mulatto woman, and that Watson had endeavored to have her accompany him to Texas. She said she had identified the man as Watson through photographs. She told in her letter that Watson had posed as a mulatto when he made his proposal to her. IN NEBRASKA JOB?  
(By F. Night Wire) LINCOLN (Nebr.), May 3.—A woman and her daughter were slain in Tecumseh about ten years ago, the County Clerk there reported today after he had been informed that efforts were being made to connect Walter Andrew Watson, alleged murderer held here, with the deaths of the two women at Tecumseh. According to the clerk's story, the crime was supposed to have been committed by the woman's husband, a man named Heese, who disappeared and was afterwards traced to California. Workmen digging in a well unearthed the bodies. Heese, the County Clerk said, had told friends that his wife and her daughter had gone away on a visit. Sheriff Elmer Nelson at Tecumseh reported that Heese was employed in Tecumseh as a bridge foreman for the Chicago, Burlington and Quincy Railroad Company, and that he was known there as E. H. Heese. He added that the crime was committed in 1911 and that a reward of \$1000 had been offered for arrest and conviction of the murderer. Laverne McMaster was the name of Mrs. Heese's daughter. She was 18 years old.

**MERRITT PLANS FINAL APPEAL.**

Lever Act Conviction to go to Highest Tribunal.

Circuit Court Upholds Food Law; New Attack Pends.

Millionaire Faces Jail as Hoarder if Defeated.

Unless the United States Circuit Court grants a rehearing, the case of Hulett C. Merritt, millionaire of this city and Pasadena, convicted of food hoarding, and sentenced to serve five months in jail, will be carried by his appeal to the Supreme Court of the United States, on the question of the constitutionality of the Lever Act. Yesterday at San Francisco, the Circuit Court affirmed the sentence, which also included a \$5000 fine and was imposed by U. S. District Judge Trippe, in April, 1919. Later in the day, W. H. Anderson, of the law firm of Anderson & Anderson, counsel with C. W. Pendleton, for Mr. Merritt, stated the intention to fight the case to a finish.

It is also understood that if the conviction stands the test in the highest court, Mr. Merritt and his friends will make a strong effort to induce the President to remit the sentence.

Mr. Merritt, a capitalist and owner of the Merritt Building in this city, was indicted in September, 1918, and the case has since been given unusual prominence. The verdict, finally sustained, will mean that he must pay his fine, serve in the County Jail here and lose some of his citizenship rights. The finding of the Circuit Court is important in that no tribunal of similar jurisdiction has before passed on the validity of the Lever Act.

**WILL ASK REHEARING.**

"It is our intention to apply to the Circuit Court for a rehearing," said Mr. Anderson yesterday. "If it is not granted, we shall undoubtedly appeal to the Supreme Court."

"We believe the Circuit Court is passing the matter on to the Supreme Court as too big an issue to be decided by a subsidiary tribunal. If the Lever Act were held unconstitutional by an appellate court, the ruling would affect thousands of profiteering cases throughout the country."

"There is no doubt in my mind that the Lever Act is unconstitutional. We shall contend that it does not properly define the crime—that it leaves to the jury the question whether the facts in any instance constitute the offense against which the act is directed."

"I have every faith that the case will be reversed."

The contention that the conservation act is vague in that it does not define food necessities was held by the Circuit Court to be without foundation. The ruling was set up that the terms "hoarding," "reasonable," "necessary," and "dependent" as used in the act are of uncertain meaning.

**HISTORY OF CASE.**

The indictment of Mr. Merritt on a charge of violating the food conservation act was returned by the Federal grand jury Sept. 4, 1918, after five 100-pound sacks of sugar had been seized July 25, 1918, at 431 Alcott place, Pasadena, near the street from Mr. Merritt's palatial home, 38 Terrace drive. It was charged that his sugar was hoarded until seized. Mr. Merritt was given his liberty under \$5000 bond, pending trial.

At the first trial, Feb. 17, 1919, the jury disagreed. April 1, following, a jury in U. S. District Judge Trippe's court found a verdict of guilty, and Mr. Merritt was sentenced to pay a fine of \$5000 and serve five months in jail. He appealed, his attorneys filing a bill of exceptions, that contained 183 separate points. Pending the outcome of the case, bail was raised to \$15,000. In these actions, Mr. Merritt was represented by Attorneys E. A. McCarver, C. W. Pendleton and C. W. Pendleton, Jr. To prosecute the appeal he retained former Judge Walter Boardwell and Joseph Bell Cotton, an attorney of New York. The case later was placed in the hands of Anderson & Anderson.

The course of the case through the courts here was marked by a \$75,000 libel suit, filed by Mr. Merritt against the Examiner, March 28, 1919. The action was based on the paper's report of certain testimony at the trial.

**WOMEN'S WORK.**

**WOMEN'S CLUBS.**

BY MYRA NYE

**Ebel Club.**

Never in Mrs. Josiah Evans Cowles' career as club woman has she spoken with more fire and carrying power, never has she shown her fine judgment and discrimination to better advantage than she did yesterday afternoon, when, in an impromptu talk, she appealed to the members of Ebel Club, which is the second largest in the United States, to join the State Federation of Women's Clubs.

In response to her appeal, the motion to accept the invitation of the State Federation carried by a vote of 237 to 65.

Mrs. Cowles herself had made the motion, and spoken to it briefly, but the applause the minority leaders, Mrs. E. C. Bellows and Mrs. W. S. Bartlett, received, seemed to indicate that the desire of the large majority was to stay out of the State organization. Mrs. Robert J. Burdette followed Mrs. Cowles with a plea for tolerance, speaking affirmatively to the motion, as did Mrs. C. C. Ashley, who had formerly been much opposed to joining. Mrs. J. B. Stearns and Mrs. William Burdette.

Mrs. Cowles, seeing the tide running in the wrong direction, asked the privilege of speaking the second time. Greatly moved, but retaining her poise every moment, she pleaded with the women to join.

"You may not need the federation, but the federation needs you. Even if your grievances are not fancied put them aside. Be loyal to organized womanhood. Do not stay on the outside and point the finger of scorn. Get on the inside and correct the wrongs you see. You are big enough to do it," she said.

That the State organization is a tool of politicians has been for many years past one of the objections the minority presented. The news of Ebel's action yesterday will be learned with interest by all clubs of the State. Their delegates will materially increase the voting strength of the federation, which will meet in annual session in Sacramento Tuesday.

The address of the afternoon was delivered by Dr. Richard Burton of the University of Wisconsin. Trippe's court yesterday the subject was "The Multitude and the Movies."
